# 2018 年中国客车销量为 50.62 万辆， 电动客车占比的提升是大势所趋

Sales Volume of Chinese Bus in 2018 rose to 500,000 units

The electric bus market is growing rapidly

配套产品是客车工业的灵魂，客车产业的进步离不开出色的零部件支持。随着经济水平的发展，现在越来越多的客车在被选购时会把空调列为必选项。哪怕是四季温度适宜的地区，当地的高端客车也会适配空调机组。数据显示，2018年客车整年销量为50.62万辆。未来，由于全球气候变暖、雾霾等原因，客车空调主要功能需求将转变为配合实现不断减少温室气体排放直至零排放，轻量化，小型化，节能环保，客车空调产业也面临着技术转型等诸多挑战。

The matching products are important to the bus industry, and the progress of the industry is inseparable from excellent parts support. With the development of economy, the air conditioning function is required when a bus was produced. Even in the city of favorable temperature, the high-end bus is still fitted with air-conditioning units. According to statistics, sales volume of Chinese bus in 2018 rose to 500,000 units. In order to protect environment, the bus A/C products will be more and more light-weight, miniaturized, energy-saving and eco-friendly, therefore, the industry will face many challenges such as technological transformation, etc.
